NOTIFICATION.

PRINCE OF WALES' ROYAL INDIAN MILITARY COLLEGE, DEHRA DUN.

No. 1.—(1) In connexion with the admission of candidates to the Prince of Wales' Royal Indian Military College, Debra Dun, the following information is published for the use of intending candidates.

The College provides a public school education on English lines for Indian and Anglo-Indian youths who desire subsequently to enter the Cadet Colleges in England with a view to obtaining Commissions in the Indian Army. It is intended for those who wish to make the Army their profession in life. The course of study at the College will, however, be such that, should a boy fail in the Army and Air Force Entrance Examination, he will be in as favourable a position for entry to a university as if he had been educated at an ordinary school.

(2) Candidates will be selected from unmarried Indian and Anglo-Indian boys of—

(*a*) Provinces of British India ;

(*b*) Indian States.

Nominations will be made by His Excellency the Commander-in-Chief on the recommendation of the Local Government or Administration or the Political Officer, as the case may be.

(3) Candidates must have attained the age of eleven years and be under twelve years on the 12th September 1932.

(4) Candidates should attach to their applications a medical certificate from the Officer Commanding a British or Indian Station Hospital or a Civil Surgeon to the effect that they are physically fit in all respects in accordance with the Appendix A to this notification.

(5) The fees will be Rs. 1,500 for each school year and are liable to enhancement hereafter, if circumstances require. The fees payable by candidates who are sons of Indian officers of good service will be determined by His Excellency the Commander-in-Chief in each particular case. These

fees will include tuition, messing, school servants, washing and mending and medical attendance of the ordinary kind, and, as initial provision, one suit of the uniform to be worn by students when at the College.

In addition to the fees referred to above, the parent or guardian of a cadet will be required to deposit with the College authorities, on his entering the College, the sum of Rs. 50 which will be returned when the cadet finally leaves the College provided that all dues have been paid.

In the event of it becoming necessary for cadets to be admitted into a civil hospital, all charges incurred will be borne by the parents or guardians of the cadets.

A full term's notice is required to be given of intention to withdraw a cadet from the College. In the event of such notice not being given, the parent or guardian will be required to pay one full term's fees in lieu, unless it is considered that the circumstances in which the cadet was withdrawn are such as to call for special consideration.

(6) Entry to the College will not be open to candidates who are already married.

(7) Parents or guardians of candidates are required to attach to the applications a declaration in the following form:—

"I,_____ father / guardian of_____, a candidate for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun, declare that it is my desire that my son / ward should make the Army his profession in life.

"I,_____ father / guardian of_____, a candidate for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun, having made myself acquainted with the fees payable at Dehra Dun, and, subsequently, at the Cadet Colleges in England (vide paragraph 67 of 'Provisional Regulations respecting admission of Indian gentlemen to the Royal Military Academy, Woolwich, the Royal Military College, Sandhurst, and the Royal Air Force Cadet College, Cranwell', as reconstructed by Amendment No. 4 of February 1931), am able and willing to pay the prescribed fees and meet the incidental expenses.

I also understand that in the event of my son / ward not adopting the Indian Army as his profession for reasons *within his control or mine*, I shall be required to pay the full cost which Government may have incurred on his education at the said college.

"I,_____ father / guardian of_____, a candidate for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun, hereby declare that my son / ward is unmarried and that he will remain a bachelor whilst at the College and until he has completed, subsequently, a course at one of the Cadet Colleges in England.

Signature of parent or guardian_____"

(8) One general mess will be maintained. All students will be required to mess together. Special care will be taken that no food is served in the mess which could in any way offend the religious susceptibilities of any student.

(9) All applications should be submitted to the Private Secretary to His Excellency the Governor of Madras, Madras Governor's Camp, not later than the 15th May 1932 in the form below. No applications received after the 15th May 1932 will be considered.

(*G. O. Ms No.* 192, *Finance*).

No. 59.—The Retrenchment Committee examined the list of unhealthy localities and the rates of special pay granted to officers serving in those localities with a view to securing possible economies either by cutting down the list of unhealthy localities or by reducing the rates of special pay The Committee has not recommended any alteration in the list of unhealthy localities, but has suggested a uniform cut of 10 per cent in the rates of special pay in all localities, except in the case of the Wynad and Attapadi valley and the Nilgiris Wynad in respect of which the Committee proposed no reduction of the existing rates on the ground that the places are exceptionally unhealthy.

2. The Government have considered the recommendations of the Retrenchment Committee and have decided that a uniform cut of 10 per cent should be made as a permanent measure in the existing rates of Class IV Special pay, in respect of all unhealthy localities, subject only to the modification that the special pays of Rs. 5, 3 and 2 drawn by officers in Grades 7, 8 and 9 in Class IV—List II in the Manual of Special Pay and Allowances, Volume II should be exempted from the operation of the cut. The revised rates of special pay will accordingly be fixed as shown in the annexure to the order and the rates of special pay specified in paragraph 12 of Part I of the Manual of Special Pay and Allowances, Volume I, modified accordingly

4 In the case of officers stationed at Siruguppa in the Bellary district, the Board of Revenue has stated that the special pay may be withdrawn, but that until complete antimalarial operations are taken, the special pay should be continued with the 10 per cent reduction. No. 289.—The following resolution of the Government of India is republished:—

DEPARTMENT OF COMMERCE.

The 26th March 1932.

No. 213 (16) T. & E. (A.B.)—By Notification No. 213 (12) T. & E. (A.B.) of this date the 1st April 1932 has been appointed as the day on which the Indian Companies (Amendment) Act, 1930 (XIX of 1930), shall come into force and by Notification No. 213 (11) T. & E. (A.B.) of the same date the rules made under that Act have

been published. In place of the Local Governments the Governor-General in Council becomes the statutory authority for the grant of certificates to persons entitling them to act as auditors of public companies in British India, and, at the same time, the qualifications required of applicants for such certificates and the regulations under which they will be granted have undergone radical alteration.

2. The Government of India recognize that an abrupt transition from the old to the new system might involve hardship to members of the accountancy profession and to persons already engaged on a course of training with a view to qualifying themselves for entry into that profession. Provision has accordingly been made in the law and in the statutory rules, and has been supplemented by administrative arrangements, by which it is hoped to avoid any difficulties which the change might otherwise have caused. The principal provisions of this nature to which the Government of India wish to call attention are the following:—

(1) Under section 3 of Act XIX of 1930 certificates granted by Local Governments before the 1st April 1932 entitling the holders, and all declarations made before that date by the Governor-General in Council entitling the members of any specified institution or association, to be appointed and to act as auditors of companies throughout British India remain valid until the 31st March 1933.

(2) Under the Auditor's Certificates Rules:—

(*a*) Any person who has obtained or shall in future obtain the Government Diploma in Accountancy awarded on the recommendation of the Accountancy Diploma Board, Bombay, is qualified for enrolment on the Register of Accountants without being required to satisfy the new tests now prescribed.

(*b*) Special concessions for the purposes of the written examinations and of service under articles, are given to persons who have before the 31st December 1934 passed the examination for the Government Diploma in Accountancy or an examination recognized as equivalent thereto by the regulations for the award of that Diploma.

(*c*) For a certain period from the 1st April 1932 Accountants permitted to take apprentices for training for the Government Diploma in Accountancy will be permitted to take Articled Clerks without being required to satisfy the new regulations governing service under articles.

(3) The First Examination prescribed by the new rules will be held for the first time in March or April 1933 and the first Final Examination in March or April 1935. In the meantime, examinations under the existing rules for the grant of the Government Diploma in Accountancy will continue to be held as at present until a date not later than the 31st December 1934; and the Accountancy Diploma Board will continue in existence for a certain period beyond that date for the purpose of making recommendations to the Government of Bombay for the award of the Government Diploma in Accountancy to any persons who may have passed the examination prescribed or recognized by the regulations governing the grant of that Diploma but may not have been able to complete the necessary practical training by the end of 1934.

Note.—Candidates will distinctly understand that no notice will be taken of any letter requesting to be informed of their register numbers, etc.

III.—REGULATIONS TO BE OBSERVED BY THE CANDIDATES.

Both at Madras and in the Mufassal.

(i) Candidates in *all* the subjects must bring with them for use in the examinations their own rulers, erasers, knives, pens, pencils, carbon papers and ink of two or more colours (other than black) for map-drawing, drawing lines in Book-keeping, etc.

Candidates in *Shorthand* will be allowed to transcribe their shorthand notes with a Typewriter. They will not be supplied with any 'thick' paper for the purpose, but will be allowed to bring with them their own 'thick' paper, if they wish to use such paper. The use of carbon paper will on no account be allowed in transcribing the shorthand notes with a Typewriter. If the machine used by a candidate, however, goes out of order, no extra time will be given to him to compensate for loss of time while the machine is out of order and is being put right.

At the end of the period allotted, candidates must give up both their shorthand and longhand performances to the Chief Superintendent for submission to the Examiner.

(ii) INSTRUCTIONS REGARDING THE EXAMINATIONS IN TYPEWRITING

Both at Madras and in the Mufassal.

1. Candidates in Typewriting, will have to bring their own Typewriters, rulers, erasers and also the necessary carbon paper with them and must specify clearly on their answer papers, the particular kind of machine used by them as otherwise their answer papers will not be valued.

2 The following is the list of the names of Typewriters recognized for use in the examinations:—

The Remington, Remington Portable, New Model Remington No 12; Yost; New Century; Smith Premier; Densmore; Empire; Underwood; Underwood Portable; Oliver; Armstrong; Standard Folding; Stearn's Visible; Sun Typewriter; Fox Visible; Salter; Victor Typewriter—Model No. 3 and No. 10; Monarch; Noiseless; Wood-Stock Standard Visible; Royal Standard No 10; Rex Visible; Moile; Mercedes; Demountable; Elite; Imperial Typewriter; British Empire Typewriter, Corona Portable No 4; All-British Barlock Typewriter; Royal Portable; Merz; Kappel; Imperial Typewriter Model No. 50; or L.C. Smith & Bros. machine.

Note.—Only one particular kind of machine should be used by the candidates throughout the examinations.

3. Seats and accommodation for the candidates:—

(a) Candidates will be permitted to bring with them for their use at the examination hall their own tables, chairs or stools, if they choose, provided they take care to see that by so doing, they do not give room to the slightest disturbance being caused in the examination hall.

(b) The candidates will be allowed to take their seats in the examination hall five minutes before the appointed hour for giving out the question paper and supplied with the necessary paper for answering and get their machines ready for work with paper inserted in them and to have their register numbers at the left hand corner of their answer papers and the particular kind of Typewriter they use at the right hand corner, typed before the question paper is given to them.

4. Candidates are strictly told not to write anything on the question paper itself. Calculations or any other points they wish to note must be written on one of the blank sheets supplied to them and such sheets including the carbon papers should be left on the table. Further candidates are strictly warned not to take carbon copies more than what is required of them in the question paper.

5. The candidates will, if necessary, be examined *in batches*, but at least every *four* candidates for the Lower grade, at least every *two* candidates for the Higher grade, must have one machine among them.

6. Managers and Instructors of institutions concerned are expected to see that their pupils are supplied with Typewriting machines in proper working order.

7. Managers and Instructors will be allowed into the examination hall in the intervals between the various batches to inspect the machines and to remedy any defects. They should take care to see that they do not remain in the examination hall while the question paper is being distributed to the candidates in the examination hall or while their pupils are answering the question papers.

8 If, however, a candidate reports to the Superintendent that his machine has gone out of order, the Superintendent will intimate this to the Manager or Instructor, if he is waiting outside on the premises, and will permit such Manager or Instructor to enter the hall (though the candidates may be at work) to inspect the machine and to remedy the defect or to supply another machine. It must, however, be clearly understood that the Superintendent incurs no responsibility in this matter; his action will be purely *ex gratia*, the whole responsibility resting on the candidate and the Manager or Instructor.

A similar concession will be allowed in the case of a private candidate, if he has someone outside who is willing to inspect the machine and put it right, etc.

No extra time will be given to candidates to compensate for loss of time while the machine is out of order and is being put right.

In the Mufassal.

Heads of Institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined should make the necessary arrangements with the Chief Superintendent concerned *four* days before the examination and furnish him with all the necessary information as to the number of candidates and machines and the time at which each batch will attend on the day fixed for the examination.

These tickets should be shown at the entrance to the examination hall. Candidates who produce tickets will be admitted to the batch specified in the tickets. Candidates who do not provide themselves with tickets cannot claim to be admitted to any particular batch. They will be admitted only, if spare seats are available in the hall, i.e., after seats are

reserved for those who have registered their names and obtained tickets for the batch. Candidates who do not hold tickets will accordingly have to wait at the entrance to the examination hall from the hour of commencement of the first batch and take their chance of being provided with seats in the first or in any subsequent batch. To avoid all inconvenience and possible disappointment, heads of institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined are particularly requested to call at the office on Saturday, the 23rd April, with all the necessary information as to the number and name of candidates that will attend at the particular batch on the day fixed for the examination and obtain tickets of admission accordingly. *No tickets can on any account be sent by post whether to heads of institutions or to private candidates.*

Candidates that have each a separate machine and that do not want to be examined in batches are expected to appear for their examination with the third batch for the Lower grade. But this does not preclude them from registering their names for that batch and obtaining tickets accordingly.

Candidates for the *Higher grade* may appear for the first or second batch at their option and *no tickets accordingly are issued for this grade.*

Instructor's Hall Ticket.—Managers or Instructors of institutions and other persons who wish to be allowed into the examination hall in the intervals between the examinations of the various batches to inspect the machines and remedy any defects, are requested to call at the office on Saturday, the 23rd April, and have their names registered. Tickets of admission specifying their names, the institutions to which they belong, etc., will be issued to them and these should be produced at the entrance to the examination hall

Both at Madras and in the Mufussil.

(ii) Attention is particularly drawn to the following rules :—

1. No candidate will be allowed to enter the examination hall unless he wears a clean and decent dress, and in all cases where good manners require it, a suitable covering for the head, nor will he be allowed to keep his shoes on unless they are made of English pattern, and socks and trousers are worn also.

No candidate suffering from any contagious disease will be admitted to the examination hall.

2. Candidates are expected to take their seats in the examination hall at least five minutes before the time fixed for giving out the question papers. No candidate will be allowed to quit the examination hall on any day until the expiration of half an hour from the time fixed for the commencement of the examination and candidates arriving after the expiration of that half hour will not be admitted

3. No candidate will be allowed to re-enter the examination hall during the hours of examination after once quitting it, nor to leave the hall without finally giving up his answer papers

4. Strict silence should be maintained in the examination hall.

5. *No candidate will, on any account, be allowed to take into the examination hall slates, books, or portion of a book, ruled sheets, manuscripts or papers of any kind.* Any candidate detected in the violation of this rule or detected in speaking to, or in any way communicating with or copying from each other and in communicating with any other person outside the examination hall or having recourse to any unfair practices will be sent out of the hall forthwith, and his conduct reported to the Commissioner for disciplinary action. The use of mathematical instruments for drawing figures or ruling lines will, however, be allowed.

6. Candidates are forbidden to note down the answer to any question on the question paper itself ; they will not be allowed to take any papers, except their question papers, out of the examination hall.

7. Candidates are forbidden to tear up paper, or to throw ink or papers on the floor. All 'spoilt' copies, etc., should be left on the desk where the candidate has been writing.

8 Candidates may have to write their answers on both sides of the paper supplied to them and they will receive the necessary instruction on this point in the examination hall from the Chief Superintendent of the examinations

9. No candidate will be allowed to exceed the time assigned to each paper.

10 As soon as candidates have finished writing their answers and wish to give up their answer papers, or at the end of the period prescribed for each particular part of the examination, each should rise from his seat and remain standing until one of the Superintendents has gone up to him and has received his answer paper from him. Any candidate wishing to ask any question of the Superintendent will pursue the same course but will on no account leave his seat.

11. Candidates whose names are not in the printed list furnished to the Chief Superintendent must submit a written declaration through the Chief Superintendent giving full particulars in regard to themselves *including their address*, and furnish such evidence as may be possible of their having applied for admission to the examinations at the proper time and paid the prescribed fees The answer papers of such candidates will not be valued unless it is clear that the omission of their names is due to no fault of theirs

12. Candidates are requested to note carefully the particulars printed in the nominal list and satisfy themselves whether they tally with those as given by them in their applications for admission to the examinations, so that any alteration with regard to their initials, name or class of community or any other correction that may appear necessary might be pointed out by them in writing to the Chief Superintendent.

13. Candidates choosing to change their place of examination without previous permission, or appearing at any centre other than the one at which they ought to have appeared according to the notice published in the Gazette, must not expect to have their papers valued or their results published In all cases where permission has been granted, the memorandum or letter permitting the change should be produced for the satisfaction of the Superintendents.

14. The answer papers should be stitched or pinned together at the upper left hand corner, and the whole folded into *two*, lengthwise (not crosswise into four). The register number, the place of examination and also (in the case of the examinations in Shorthand, the particular system adopted) and (in the case of the examinations in Typewriting, the name and number of the Typewriter used) should be written out clearly by the candidates on the top right-hand side of the first page

of the answer paper, as well as on the top of the paper after it is folded.

[*N.B.*—(1) Candidates are strictly forbidden to write or type their names on the answer papers.

(2) Candidates should distinctly understand that failure to furnish even any one of these particulars may involve the rejection of valuing their answer papers—particularly any answer paper sent up without the candidate's register number and name of centre will not be valued.]

15. *Any candidate who does not behave properly towards the Chief and Assistant Superintendents of the examinations or is suspected of having had recourse to malpractice of any kind is liable to have his examination invalidated and also to be debarred from appearing again for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit; or, if the Commissioner is not satisfied for any reason whatever as to the trustworthiness of his results, he may be required to undergo a re-examination at some future date to be fixed by the Commissioner in any one or more of the subjects of the examination for which he appeared, his success or failure being determined on the results of such re-examination.*

16. Candidates are forbidden to communicate with the Examiners; should they do so, their answer papers will not be valued and further their conduct will be reported to the Commissioner for any action that he may deem fit.

17. No information can be furnished in regard to the results of a candidate in any subject or in regard to the marks obtained by him or in regard to the particular section or subdivision in which he may have failed. The names of successful candidates in each subject arranged in two classes, First and Second, will be published in the *Fort St. George Gazette*. The pass-list for each grade of a subject as published in the Gazette is complete and final. **Applications from or on behalf of unsuccessful candidates asking for information as to the cause of failure or for a revaluation of the answer papers will not be attended to. No revaluation of answer papers is permissible.**

GINGELLY CROP OF 1931-32—FOURTH OR FINAL FORECAST REPORT.

[On an average of the five years ending 1929-30, the area under gingelly in the Madras Presidency has represented 12·6 per cent of the total area under gingelly in India.)

The area sown with gingelly 1931-1932 is estimated at 757,200 acres as against the estimate of 734,400 acres on the same date last year and the actually recorded area of 745,872 acres last year. The estimate for this year is 1½ per cent above last year's actuals. The area in an average year is estimated at 799,030 acres.

2. 216,300 acres have been reported as sown since the date of the previous forecast report issued in January, against 179,300 acres last year. These late sowings were mainly on wet lands in the Circars, Carnatic, and the South where gingelly was raised as a second crop after paddy.

3. There has been an increase in area except in Ganjam, Vizagapatam, East Godavari, Nellore, South Arcot, Salem, Coimbatore, Tanjore and Malabar.

4. The yield was normal except in East Godavari, West Godavari, Anantapur, South Arcot, North Arcot, Salem, Trichinopoly, Tanjore, and Madura where it was below normal. The condition of the late sown crop is generally fair.

5. The seasonal factor for the Presidency works out to 95 per cent of the average as against 98 per cent in the previous year. On this basis, the yield is estimated at 98,000 tons as against 97,740 tons in the previous year and an average yield of 107,570 tons.

6. The wholesale price of gingelly is reported to have risen generally, as compared with the prices reported in January 1932. The present prices are 13½ lb. per rupee in Kistna, Guntur, and Nellore and 8 to 12 lb. in other districts.

6. Figures by districts are given below.

Madras, 12th April 1932.

COTTON CROP OF 1931-32—FIFTH OR FINAL REPORT.

[On an average of the five years ending 1929-30, the area under cotton in the Madras Presidency has represented 9·2 per cent of the total area under cotton in India.]

The area sown with cotton in the Madras Presidency in 1931-32 is estimated at 2,285,200 acres against 2,116,600 acres on the corresponding date of last year and 2,175,700 acres in the February forecast of the current year. The present estimate for the Presidency represents an increase of about 9 per cent over the final area of 2,071,398 acres in 1930-31.

2. Picking of cotton is in progress and will be finished by the end of this month.

3. Normal yields are expected in Ganjam, Vizagapatam, East Godavari, West Godavari, South Arcot, Chittoor, North Arcot, Coimbatore, Tanjore, Ramnad, Tinnevelly and the West Coast. Yields below normal are expected in the other districts, especially Anantapur (60 per cent), and Bellary (73 per cent).

The seasonal factor for the Presidency works out to 93 per cent of the average for irrigated cotton and 87 per cent for unirrigated cotton, the final figures for the last year being 95 per cent and 88 per cent. On this basis, the yield works out to 428,100 bales of 400 lb. lint against 380,890 bales in the previous year, an increase of about 12 per cent and against an average of 527,100 bales. It is, however, too early to estimate the yield with accuracy as much will depend on the subsequent weather conditions for the second crop and the toll taken by insect pests.

4 The estimated area and yield under the several varieties are given below :—

This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department officers, save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be retained in the case of the successful tenderer, and will not carry any interest. It will be dealt with as provided in the tender.

4 When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender, sign an agreement in the proper departmental form for the due fulfilment of the contract. He shall also within seven days of such signing of the contract make a security deposit of rupees two hundred only in one of the forms pre-scribed in the Madras Public Works Department Account Code which deposit together with the earnest money and withheld amounts will be returned as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such despoit will not bear interest. Failure to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5 The tenderer shall examine closely, the Madras Detailed Standard specifications and also the Standard Preliminary Specification contained therein, and sign the Divisional office copy of the Madras Detailed Standard specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Executive Engineer, Godavari Western Division. A copy of the set of contract documents can also be had on payment of Rs. 10 (ten) for each set.

6. The tenderer's attention is directed to the requirements for materials under the clause 'Materials and workmanship' in the 'Preliminary Specification.' Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive specification sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications or in this tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor after examination of the source of materials defined in the Descriptive specification sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, alter acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. The tenderer will, however, base his lump sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract. The names of quarries, kilns, etc , wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant Standard Specification Samples of materials as called for in the Standard Specifications, or in this tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or

sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard " Preliminary Specification " regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard " Preliminary Specification " dealing with

(1) Test, inspection and rejection of defective materials and work.
(2) Carriage.
(3) Construction plant.
(4) Water and lighting.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Godavari Western Division, or as set forth in the conditions of contract. The tenderer, will, however, base his lump sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract. This schedule accompanying the lump sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No cartage or incidental charges will be borne by Government in connexion with this supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

Three months from May 1932 to July 1932—30 per cent of work completed.
Six months from May 1932 to October 1932—30 per cent of work completed.

16. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

17. The programme of work in column 13 of the Tender notice is based on the assumption that the contractor will be given possession of the premises on 15th May 1932 or earlier. STATEMENT OF OBJECTS AND REASONS.

The Haj Inquiry Committee, which was appointed by the Government of India in March 1929, in pursuance of an undertaking given in September 1928, in the course of a debate in the Legislative Assembly, to enquire into the arrangements in force for pilgrims proceeding to the Hedjaz from India discussed the question of Port Haj Committees in Chapter XIII of their Report. The Committee proposed that central legislation should be undertaken for the purpose of converting the Haj Committees already existing at the ports of Bombay, Karachi and Calcutta into statutory bodies, revising their constitution, and widening their powers and functions. The present Committees have been in existence for many years, but owe their existence merely to executive orders issued by Government, and are mainly advisory and consultative bodies. All executive work in connexion with the pilgrim traffic is at present carried out by a Government Pilgrim Department at each port. Each Department includes a Protector of Pilgrims appointed by the Local Government under a local Act. The head of the Department and Chairman of the Committees is the Commissioner of Police at Bombay and Calcutta. At Karachi the head of the Department is the Collector, but the Chairman of the Haj Committee is elected by the Committee itself. In the opinion of the Haj Inquiry Committee, the work done would gain in value if the Committees could be released, at any rate to a large extent, from official control and given wider duties. The Haj Inquiry Committee therefore proposed that the Port Haj Committees should cease to be merely advisory and consultative bodies and should be entrusted by law with the administration of all work connected with the pilgrim traffic at the ports.

2. The recommendations which the Haj Inquiry Committee made regarding the composition, powers, functions, staff, sources of income and financial liabilities which should be given to the Port Haj Committees in future have been examined by the Government of India in consultation with the Governments of Bombay and Bengal, and other interested parties, including the Standing Haj Committee of the Indian Legislature; and they have come

to the conclusion that the Haj Inquiry Committee's proposals should be accepted with certain modifications. The Bill is designed to give effect to the conclusions which have been reached. The reasons for the various provisions included in the Bill are stated briefly in the Notes on Clauses.

NEW DELHI, F. NOYCE.
The 23rd March 1932.

NOTES ON CLAUSES.

Clause 1.—It is proposed that Port Haj Committees should be constituted in the first instance only for the Ports of Bombay, Karachi and Calcutta. For this reason sub-clause (*2*) extends the Act in the first instance to the Presidencies of Bombay and Bengal only; but if it should happen that pilgrim traffic develops in a port in another maritime province, the Governor General is given power to extend the Act to that province. Sub-clause (*3*) reserves to the Governor General in Council the power to put the Act into operation in any province.

Clause 2.—These definitions are assimilated as closely as possible to those contained in the Indian Merchant Shipping Act, 1923, and in the Hedjaz Pilgrims (*Musafirs*) Bill.

Clause 4 gives the composition of the Port Haj Committees of the three principal ports. The proposals made follow the views which the Local Governments concerned have expressed upon the subject.

Sub-clause (*4*) will allow the various electorates to choose any suitable person they like, even though he is not one of their own number.

Clause 5.—As these Committees are a new conception, it is undesirable that their composition should be prescribed by the statute in a hard and fast manner. This clause, therefore, has been inserted in order to enable Government to alter the composition of these Committees from time to time as developments may require. The draft adopts the precedent of section 71 of the Government of India Act, and, while giving the initiative in these matters to the Local Government, will reserve final decision to the Governor General in Council.

Clause 6 makes provision for any port which may in future develop into an important depot for the pilgrim traffic.

Clauses 7, 8, 9 and 10 relate to the nomination, election, co-option, term of office, formation of new committees, eligibility of candidates, election disputes, mode of filling casual vacancies and such like matters which are usual in the case of bodies comprising elected members. The provisions relating to the term of office call for special mention. Clauses 7, 8 and 9 require that a complete list of members of a new committee shall be notified in the Gazette, that the term of office of members shall run from this date and shall continue ordinarily for three years, but in any case until the publication of the next complete list of members; and clause 9 empowers the Local Government to extend this term in order to surmount a difficulty connected with the date of the

Haj Day. That date occurs earlier in each successive calendar year, and a hard and fast three-year term of office would occasionally involve the replacement of the Committee at the very time when it is most active. In order to avoid this the Local Government may prolong the term of office of the existing Committee by postponing elections to a suitable date

Clauses 11, 12 and 13 relate to the Chairman and Vice-Chairman of a Port Haj Committee. To begin with, it is proposed that the Chairman should be nominated by Government but clause 11 (*1*) provides also for the election of the Chairman.

Clauses 13 and *13* give power to the Local Government to make rules regarding certain important matters and to the Committee to make by-laws regarding other matters.

Clauses 14, 15 and 16 concern the officers and servants of the Port Haj Committees. The chief officer will be the Executive Officer who will also be the Secretary of the Committee. To begin with, the Executive Officer and his staff will be paid for by Government, and the Bill proposes that so long as this is the case they should also be appointed by Government and the conditions of their service determined by Government. The clauses, however, make provision for the delegation of these powers to the Committees as soon as they are in a position to meet the charges from funds at their own disposal.

Clause 17 lays down a few broad rules as to the meetings of Committees and the conduct of their business, and leaves all subsidiary matters to by-laws to be made by the Committees themselves. The proviso to sub-clause (*i*) is intended to enable the Committees to take up their active duties at once.

Clause 18 contains a category of the duties allotted to Port Haj Committees, and clause (*g*) will allow this category to be expanded.

Clause 19 replaces sections 9 and 10 of the two local Acts, that is, the Protection of Pilgrims Act, 1887 (Bom Act II of 1887), and the Protection of Muhammadan Pilgrims Act, 1896 (Bom. Act I of 1896), which are accordingly being repealed by clause 24.

Sub-clause (*b*) proposes to place the control of the initiation of prosecutions in the hands of the President of the Port Haj Committee instead of in the hands of the Commissioner of Police as under the local Acts.

Clause 20.—Clauses (*a*) to (*f*) will place at the disposal of Port Haj Committees all sources of income now in existence which are in any way connected with pilgrims to the Hedjaz and which may reasonably be placed at the disposal of the Committees. Clause (*g*) also places under their control the funds known as the Indigent Pilgrims Funds which largely consist of private subscriptions intended to be used for the relief of indigent pilgrims; hence the proviso restricts the application of these moneys to the purposes intended by the subscribers. Clause (*h*) contemplates that the Committees will supplement their funds by charitable subscriptions, and also that they may receive financial assistance from Government.

Clause 21 will limit the application of the fund to expenses incurred in the discharge of the duties of the Committees, and to any other object which the Local Government may prescribe by rule.

Clause 22 gives the Local Government power further to regulate the financial activities of the Committees.

Clause 24.—As the Executive Officer of the Port Haj Committee will in future perform the duties of the Protector of Pilgrims under the local Acts, section 8 of these Acts is repealed, in addition to sections 9 and 10 which are replaced by clause 19 of the Bill.

The following Bill was introduced in the Legislative Assembly on the 31st March 1932 :—

STATEMENT OF OBJECTS AND REASONS.

Muallims, that is, professional pilgrim guides, many of whom are foreign subjects, play an important part in connection with the Haj pilgrimage. Their activities were originally confined to the Hedjaz, but now extend to the recruitment of pilgrims from foreign countries, and with this object in view foreign *muallims* frequently visit India. During the three or four months preceding the Haj Day, *muallims*, both Indian and foreign, tour throughout the country, especially Bengal, endeavour to secure as many clients as possible, and escort them to the Hedjaz. Some of them do their work honestly and to the benefit of pilgrims, but unfortunately others are unscrupulous and dishonest. The question whether any action could be taken to control the activities of *muallims* and their agents in India was accordingly examined by the Haj Inquiry Committee, *vide* paragraphs 244 to 248 and recommendations 194 to 202 of their Report.

In Bengal and Bombay there are already provincial Acts under which every "pilgrim-broker," or person dealing as an intermediary in passage tickets for pilgrims, is required to take out a licence for carrying on his trade ; but only the Bengal Act extends to *muallims*

and requires them, unless they are Arab subjects, to obtain licences. The Bengal and Bombay Acts have no force in other parts of India. The Haj Inquiry Committee recommended that the provincial Acts should be replaced by an Act of the Indian Legislature, which Act should require all *muallims* and their agents, of whatever nationality, to obtain licences to carry on their trade in any part of India. The Government of India have carefully examined the Committee's proposals in consultation with the Governments of Bombay and Bengal and other interested parties, including the Standing Haj Committee of the Indian Legislature, and have come to the conclusion that legislation on the subject is necessary. The Bill is designed to give effect to this decision. The reasons for the various provisions included in the Bill are stated briefly in the Notes on Clauses.

F. NOYCE.

NEW DELHI,
The 24th March 1932.

NOTES ON CLAUSES.

Clause 1.—As *muallims* visit the whole of India, sub-clause (*2*) extends this Act throughout British India, but sub-clause (*3*) reserves the power to bring it into force in any province to the Local Government.

Clause 2.—The definition of "pilgrim" and "pilgrimage" has been assimilated as closely as possible to the definitions in the Indian Merchant Shipping Act, 1923, and in the Port Haj Committees Bill. The definition of "*muallim*" is based on the recommendation of the Haj Inquiry Committee in paragraph 245 of their report, but it is more comprehensive and drafted with closer reference to section 2 of the Indian Contract Act, 1872. It will include the persons defined as "pilgrim brokers" in the two local Acts, namely, the Protection of Pilgrims Act, 1887 (Bombay Act II of 1887), and the Protection of Muhammadan Pilgrims Act, 1896 (Bengal Act I of 1896).

Clauses 3, 4 and 5.—Clause 3 reserves to the Governor General in Council a rule-making power which will secure co-ordination and the necessary degree of similarity throughout the various provinces. Clause 4, however, gives the Local Government power to appoint the authority which will grant licences to and control *muallims*, and clause 5 will allow the Local Government to supplement the rules of the Governor General in Council to provide for local conditions.

Clauses 6 and 7.—Clause 6 imposes a penalty on persons who act as *muallims* without licence, and clause 7 raises a presumption that, where a person volunteers to act as a *muallim* without consideration, then he does so in the hope of a reward.

Clause 11 recognises that though a *muallim*'s field of operations may be in an up-country province, yet it is reasonable that he should be allowed to accompany his recruits to the port of embarkation. Hence, the clause allows him to enter into negotiations with intending pilgrims only in the province in which he is given

a licence, but enables him to accompany his group of pilgrims to the port. It does not, however, entitle him to act as a *muallim* in the port unless he holds a licence granted in the province in which the port is situated. It is necessary to impose this condition as a *muallim* has greater opportunity of defrauding pilgrims at the port than he has in the province in which he is licensed, and it would be difficult for the authorities at the port to prevent him from exploiting such opportunity unless he is brought under their control by requiring him to obtain also a licence in the province in which the port is situated, in the event of his desiring to act as a *muallim* in the port. The clause does not prevent a *muallim* from obtaining a licence in more than one province.

Clause 13 will repeal the two local Acts above referred to but will allow pilgrim brokers and *muallims* already licensed to continue to work as pilgrim-brokers or *muallims* until they get a licence under the new rules.
